Accurate

Reliable

Protection

Simply install Cellcontrol...and Cellcontrol simply works!

1) Plug the Cellcontrol Trigger Unit into the car,

- *Trigger unit detects car motion and immediately signals phone.*

2) Download Cellcontrol software onto the phone, and

- *Cellcontrol-protected phones detect signal; usage is blocked when driving.*

3) Setup, customize and manage your policy on the Internet - it's easy!

- *Web-based dashboard lets you know that Cellcontrol is protecting your family.*

In addition to stopping dangerous behaviors like texting while driving, **only Cellcontrol tells you** important information about **how your car is really being driven** by your teen...

Want excess speed alerts?
Cellcontrol will send them to you.

Want to know when and how far the car was driven?
Cellcontrol builds a log for your review.

For only a few dollars per month, can you protect your teen while driving?

Go to www.cellcontrol.com to find out more.

Easy to Install

Always On
