

Richland Co. Seed and Crop Swap

It's no joke folks!

On April 1st, we will start a movement of planting, sharing, educating, creativity, healthy eating, connecting generations, and creating resilience in a changing world. This first monthly meeting will be at the Urban Garden and focused on *seed and sprouts*. We will have plenty of seeds and dirt to get the party started.

Please join me at Urban Garden on 311 Bowman St. 4:00-6:00 pm to: have a great time trading, planting, sharing ideas and discussing how we will produce local food for one another no matter how big or small!

Bring something if you wish or nothing at all.

Bring something to trade; there's no money exchanged.

Bring your kids or bring a friend, bring yourself do not be afraid.

For a seed neither fears light nor darkness but uses both to grow.
