ODH Grants Management  
Dave Feltz and Juni Johnson

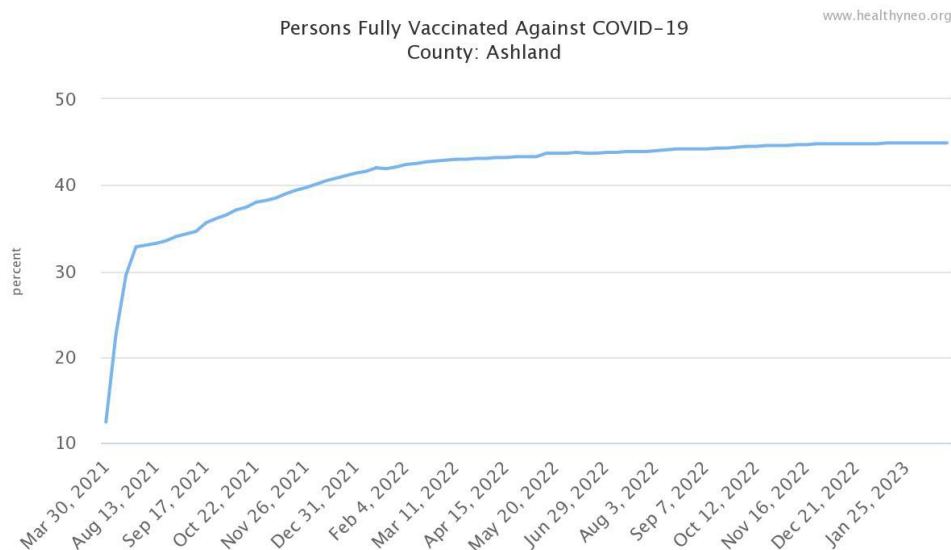

## Re: Mobile Vaccination/Clinic Unit EO21 Funding

Dear Juni and Dave,

Per ODH guidance provided on March 7, 2023, we are requesting approval to purchase a mobile vaccination clinic unit. We have presented this proposal to the local Board of Health and have been approved to spend up to \$300,000.

The rationale for the purchase of the said vehicle for COVID mitigation purposes is to be able to reach the isolated populations within Ashland County. We have a significant Amish population that is not vaccinated, nor do they test for Covid-19. Our goal is to take the mobile unit to different communities to host both testing clinics and vaccination clinics.

As you can see from the image below, Ashland County's vaccination rate is under 50%: From HealthNEO.org.

Source: Centers for Disease Control and Prevention (Feb 22, 2023)

Amish communities in Ashland County do not have electricity and in order to host a community-wide event within their location, we need to have freezers available to handle the vaccines. This unit would meet that need.

We also have two areas of underserved in Ashland (partly because Amish live in these communities but also because of poverty levels), and that is Polk and Nova. Nova is in the far northern part of the county and Polk has a large population of Amish and farmers. Transportation to the health department may be a barrier and going into the communities may be more effective.

To this end, I am attaching four quotes for mobile vans, emails stating the vans are not able to be leased, and in this cover letter, have described how the mobile van will be used in accordance with vaccination efforts, testing and training on how to test moving forward, and how these efforts should help in mitigating the spread of covid in Ashland County. The van is handicap accessible and fully contained with a generator, two vaccination areas, and an area for a vaccination clerk to process paperwork.

We have decided to go with the used 2022 van from TESCO (mobiletestingclinic.com marked as Quote #1) for multiple reasons. The first reason is the lead time for completion of a new unit is upwards of 22 months and will take this outside the time to spend the funds. The used unit is available now. The second reason is that the vehicle is located in Ohio only about two hours from Ashland. We will be able to test drive and then pick up the van within days of approval of the funds. TESCO is also providing branding at no extra cost so that the public health logo is on the van. The quoted cost of this van is approximately \$230,000 at pick-up.

Thank you for considering the approval of the purchase of a mobile unit by using the administration fees from vaccination efforts through the EO21 Grant. The spreadsheet with the amount of the funds collected was provided in GMIS.

Please let me know if you need more information or if you have any questions.

With regards,

Vickie Taylor, Health Commissioner  
Ashland County Health Department

## Vehicle Description:

### Available Units

U11679-S 1FDFE4FN1NDC34312 Mileage: 12,750

U11681-S 1FDFE4FN7NDC34315 Mileage: 13,530

U11682-S 1FDFE4FN9NDC34316 Mileage: 11,700

For sale is a 2022 Ford E450 Mobile Clinic with very low mileage (available units and exact mileage listed above). These units are 'Like New' and still in excellent shape as they've only been lightly used the first year. They have 2 exam areas separated by a door for privacy, a restroom with its own sink, Braun wheelchair lift off the very rear of the vehicle, plenty of counter space in both exam areas, upper

and lower locking cabinets throughout , and 2 entry doors in case you need to exit and the other exam room is in use. They come equipped with a 7Kw Cummins Onan Quiet Generator with interior start button and hour display, 50 Amp Shore Power Access and cord, (2) Dometic Rooftop 15k A/C units, (2) Ouellet 1000 Watt wall heaters, (2) Fantastic 4000 Series 14" powered roof vents, Accucold Medical grade fridges, RVS backup camera system with monitor, Ritter 204 Exam bed in rear, blood draw chair in front room, Mofi Wifi network, interior outlets, soap and sanitizer dispensers, sharps disposal, exterior GFI outlet, smoke and carbon monoxide detectors, emergency equipment, and much more. These units have the ideal setup for a mobile exam clinic, and they are one of our most popular units we sell. Call today before it's too late! **For more information, please contact Ben at 419-708-3112 or Greg at 419-367-5521.**

Hello Adrien! I received a quote from you a while ago for a mobile vaccine clinic. We finally received some the stipulations from the CDC and the Ohio Department of Health. One stipulation is we have to verify that vehicles are not able to be leased and have to be purchased out right. If you could clarify this that would be helpful. Thank you!!

**From:** Lee Guse <leeguse@lifelinemobile.com> on behalf of Ken Guse <kenguse@lifelinemobile.com>  
**Sent:** Wednesday, March 8, 2023 11:13 AM  
**To:** Chris Bivens  
**Subject:** Your Inquiry to LifeLine Mobile

Dear Nurse Bivens:

Thank you for contacting LifeLine to request information on our custom-designed mobile health care units. We can assist you every step of the way throughout the planning and building process.

You have an open invitation to visit our manufacturing facility on the southern edge of Columbus. You're only an hour and a half drive for you and a colleague or two to see why LifeLine's "professional space in motion" is way, way ahead of the competition! Call or write when you can come down and we'll make sure the welcome mat is out.

In the meantime, our goal is to make you the expert at Ashland County Health for designing a mobile unit floor plan that fully satisfies your screening objectives, so here are some special web access information areas for you.

**PLANNING GUIDE ACCESS**

For a copy of our mobile unit *Planning Guide*, click the "Guide" button here:

If the button is disabled in your email, copy and paste this link into your browser's address URL bar: <https://www.lifelinemobile.com/PlanningGuide>

An electronic version of the *Planning Guide* booklet will open, and you can flip through and download pages if you wish. If you want a printed copy by U.S. mail, please ask and we'll rush one out.

**PLANS ACCESS**

You can view our "Plans" section at our web site. Click the "Plans" button here:

If the button is disabled in your email, copy and paste this link into your browser's address URL bar: <https://www.lifelinemobile.com/LLMplans>

You can select plans by category and print them out if you wish. Those plans where the vehicle is under about 38 feet in length will almost always fall into the non-CDL category.

**INVITATION-ONLY PHOTO GALLERY**

On our web site, you can view a private photo gallery by clicking the "Photos" button here:

If the button is disabled in your email, copy and paste this link into your browser's address URL bar: <https://www.lifelinemobile.com/pix>

An electronic slide show will open, and you can select your favorite category and check out why LifeLine Mobile units are world-class. They truly are, "professional space in motion."

### PRICING RANGES

Pricing is far-ranging, Chris, but a single exam room unit with waiting for a few patients and a private exam suite, will run from \$325,000 to \$400,000 including basic medical equipment like ob/gyn table, exam stool, sphygmomanometer, otoscope, ophthalmoscope and more. A two-exam room unit will run from \$350,000 and up. Current production times average 20 to 22 months. **Leasing is not available for our vehicles.**

If you are interested in a free, no-obligation floor plan design with exact pricing, please contact me by phone or email and we can begin the design phase. Should you have questions about any of our materials, use this link to name a time that I will call you.

or copy this link in your browser: <https://lifelinemobile.appointlet.com/s/1-hour-consultation>

I look forward to speaking with you soon about your request.

Hi Chris,

It would run in the \$300,000 range for the small cutaways (Ford) and \$600,000 for the longer Mt55s.

CAUTION: External message.

Our situation is that we have some covid money we need to spend and I was just curious about how much a mobile vaccine clinic would cost. I looked at your website and there was the two 30' Freightliner MT-55 that were done for DOH (WA) for covid vaccinations and testing. I was just wondering what something like that would run approximately to see if that would even be a possible option for us. Thanks in advance!

Good Morning Chris,

I hope all is well. Marketing mentioned that you might have some interest in a mobile application. Let me know if you have a moment to catch up and discuss. Please see my contact information below.
