ArcelorMittal Tubular Products Partners with Skate Ohio

FOR IMMEDIATE RELEASE

July 15, 2024

Shelby, OH—ArcelorMittal Tubular Products is proud to announce our new community outreach partnership with Skate Ohio.

Skate Ohio is a local non-profit organization that focuses on providing alternative athletic opportunities that extend beyond traditional norms. Skate Ohio seeks to empower individuals of all ages and skill levels through the act of riding. Skate Ohio believes that skate parks and facilities are more than just concrete; they are spaces where creativity flourishes, friendships form, and self-expression takes center stage.

ArcelorMittal Tubular Products is honored to have reviewed the long-term vision of Skate Ohio. In the near term, Skate Ohio will be working with the City of Shelby officials to modernize the Veteran's Park skate park. Skate Ohio has obtained written permission to update the park through the "adopt a park" program.

ArcelorMittal Tubular Products is proud to provide monetary support of \$50,000 which will be used to order new ramps, fix existing ramps, modify the current skate setup, as well as fund general maintenance, cleaning, and graffiti removal.

ArcelorMittal looks forward to all other facets of this exciting collaboration as Skate Ohio grows their presence throughout north central Ohio.
