Clear Fork Colts FOOTBALL STATS

COACH WORKSPACE • 2026 SEASON

Use this workbook to enter one game at a time. Green cells are for coach input; calculated cells should not be changed. Complete the five steps below after every game.

WEEKLY WORKFLOW

1	**Open the correct Game tab**	Use Game 1, Game 2, and so on. Confirm the opponent and final score first.
2	**Enter or paste Hudl statistics**	Only enter values in the green input cells. Use the player dropdowns instead of typing names.
3	**Mark players who played**	Enter 1 in the Played column for every player who appeared in the game.
4	**Check the totals**	Compare team offense, defense, scoring, returns, punting, and kicking totals with your stats.
5	**Review reports**	Open Team Summary, Offensive Leaders, Defensive Leaders, and Special Teams Leaders to verify the update.

WHAT THE COLORS MEAN

GREEN	Enter or paste information here.
BLUE	Formula or calculated result—do not overwrite.
RED	Possible error or value that needs review.
GRAY	Label, unused area, or administrative field.

TABS COACHES WILL USE

Roster	Add players and maintain jersey, grade, position, and active status.
Game 1–Game 16	Enter weekly game statistics.
Team Summary	Review team totals and season results.
Offensive Leaders	Review passing, rushing, and receiving leaders.
Defensive Leaders	Review individual defensive leaders.
Special Teams	Review kicking, punting, and return leaders.

IMPORTANT ENTRY RULES

- Use the roster dropdown whenever a player name is requested. This prevents duplicate or misspelled player records.
- Do not insert, delete, or move rows on a Game tab. Those rows feed the season reports.
- Do not replace formulas in blue or white calculated cells.
- If a report looks wrong, return to the Game tab and verify the player name, Played value, and section totals.

MASTER ROSTER — Please enter your players at the start of the season.

Jersey #	Player Name	Grade	Primary Position	Active?	Notes
